

Dane County Criminal Justice Council (CJC) Feasibility Process for Cross-Agency Data Sharing

STEP 1

Process Kick-Off and Preparation

Convene stakeholders
to engage in shared
learning and discuss
state of project

Obtain answers
to technical data
questions

Develop initial
memorandum of
understanding (MOU)
for exploratory data
linking

STEP 2

Determining Technical Feasibility

Begin initial data
sharing with CJC
analyst

Perform cross-agency
data linking and
analysis

Identify database
gaps and needs

STEP 3

Sharing Early Findings and Solutions

Share feasibility
findings with CJC

Provide
recommendations
for addressing
gaps and making
improvements

Brainstorm with CJC
on next steps

Next Steps:

- Identify key questions (e.g., percentages of citizens arrested and booked into jail according to race/ethnicity, number of offenders served by diversion programs who have experienced no subsequent arrests, number of citizens with jobs after release from jail)
- Establish MOU for next phase
- Create work plan through 2018
